The Alpha of Match Pistols

*Docter Sight III, Meopta Meosight III, Insight MRDS, Burris Fastfire 2 / 3, Trijicon RMR, C-More STS2, Leupold Deltapoint, Vortex Viper/Venom

The new Alpha

SFP9 MATCH OR - The alpha in caliber 9 mm x 19 for the ambitious sports shooter with a penchant for precision and perfection. Whether under static or dynamic competition conditions: It's a Match.

A customizable grip volume adjustment in combination with the perfect ergonomics of the pistol ensures a balanced and safe hand position during rapid firing disciplines. Our new light sport trigger with a pull of only 15 +4N and the 5.5 inch long HK precision barrel reduces the possibility of a stray bullet thereby increasing accuracy. The OR interface of the Match pistol offers different MRDS mounting options so the competitor may fine tune the gun to suit them.

All assemblies are manufactured to our usual high HK quality standards and are precisely machined to allow perfect function.

The disassembly of the pistol follows the same safe sequence of action as its military family members whilst maintain tool-less disassembly. Unlike some pistols, ours will not allow the disassembly process to start until the magazine is removed. It could hardly be safer.

Facts

Caliber	9 mm x 19
L x W x H (mm)	227,0 x 43,5 x 163,0
Barrel length (mm)	140,0
Sight radius (mm)	195,0
Weight (g)	813,0
